---

## Professional Experience

---

### Supplier.sa | Oct 2025

- Deployed and hosted the full website on a live server, configured environment variables, and managed GitHub updates.
- Integrated Google Maps API, Click Pay payment gateway, and AI functionality using N8N with real-time user notifications.
- Collaborated closely with the client, providing regular updates and ensuring full alignment with project goals.
- Focused on enhancing SEO performance, improving user experience, and ensuring smooth registration and payment flows.

### FreshHeat | May 2025

- Developed a full-stack restaurant web application with user authentication, profile management, and real-time order processing.
- Integrated Stripe payment gateway and automated email confirmation system to send detailed order summaries to customers.
- Utilized GitHub for version control and Trello for task management to ensure smooth workflow and organized development.
- Focused on delivering a seamless user experience with responsive design and smooth checkout flow.

---

## Activities

---

### ECPC Participant (Expected 2025)

Planning to participate in the Egyptian Collegiate Programming Contest to enhance competitive programming and problem-solving skills.

### Speaker & Front-End Mentor (2025)

Conducted front-end development sessions for a student group, explaining core concepts and guiding beginners through practical projects.

Actively involved in self-learning and mentoring activities within the university's tech community.
